

## SEMA SUCCESS FOR WHITELINE AND BLACKBOX

eEMOTIV.com would like to congratulate Redranger and Whiteline on being awarded a prestigious 'GLOBAL MEDIA AWARDS' at the 2008 SEMA show held in Las Vegas, USA.

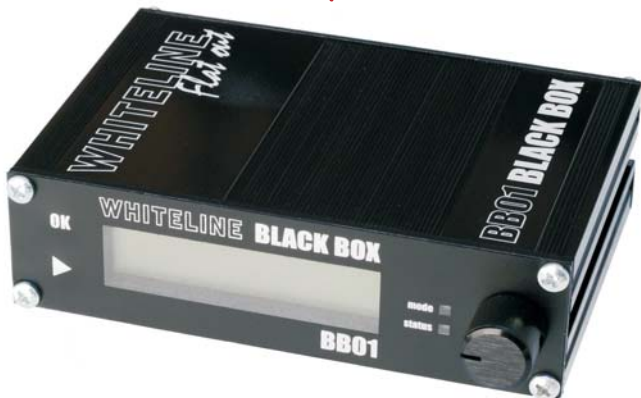

The voting panel reviewed over 2,000 new style and performance products that were introduced at this year's show. From these, the journalists selected 10 products each that would be of most interest to their publications readers and most likely to succeed commercially in their respective countries. Publications from 25 countries were represented on the judge's panel this year

Award – **KBB0104 Whiteline Blackbox**  
Electronic Handling Bias Modifier for a Nissan 350Z Z33 received an award from Car UK (United Kingdom)

# WHITELINE

*Flat out*
